

EEL Review games:

- 1) Bingo - use the charts to call out **definitions** in random order. Kinds have to decide what word is being defined and cover / mark off the word until 3 students get Bingo (or as time allows).
- 2) Fill in the chart - Divide class into 2 or 3 teams. Draw chart on board with sentence patterns and sentence purposes. Call out a sentence from the “Valentine Sentence Sort” PDF and have all the students decide where it goes on the chart. Then let one team try to place it on the board. If they are wrong, the next team gets a turn. Team with the most sentences placed correctly wins.
